

## I Danced

## Violent Femmes

I danced before I had two feet  
I danced before I had two feet  
I danced before I had two feet

And sang before I had a tongue  
I laughed before I had two eyes  
Loved before my heart was young  
I swam before I had two hands  
And held the distance in my toes  
Before I heard the stars I knew  
The wild compulsion of the rose

I bore the fruits of many lies  
Before I came into this day  
I knew before my grave was made  
Worms eat only death away  
The worms eat only death away

And sang before I had a tongue  
I laughed before I had two eyes  
Loved before my heart was young  
I swam before I had two hands  
And held the distance in my toes  
Before I heard the stars I knew  
The wild compulsion of the rose

I bore the fruits of many lies  
Before I came into this day  
I knew before my grave was made  
Worms eat only death away  
The worms eat only death away

I danced before I had two feet  
I danced before I had two feet  
I danced before I had two feet  
I danced before I had two feet

I danced before I had two feet  
I danced before I had two feet  
I danced before I had two feet
