

# When Everybody's Happy

Violent Femmes

Can you imagine the world at peace  
What would it be like?  
Can you imagine such harmony  
And what will happen?

When everybody's happy  
When everybody's happy  
When everybody's happy  
But me

Can you imagine this headache I have  
Writin' this song  
Can you imagine the storm inside  
And the quiet

When everybody's happy  
When everybody's happy  
When everybody's happy  
But me

I think that I would really like to love  
Give and receive  
I pray that my spirit may rise above  
And I'll live a good life

When everybody's happy  
When everybody's happy  
When everybody's happy  
    (Happy)  
Happy  
    (Happy)  
Happy  
But me
