

# Holy Cave

Violent Soho

I remember times  
All those nights  
When we drove so far away  
Take me there  
Fearless air  
We can find a hideaway

And I'll be free  
Unwind the sheets  
Let the breeze trickle like lead  
There's a place  
I like to hide  
Anywhere, yeah I don't... mind

There's no light  
In my cave  
My holy cave

All of these lights  
Hurt my eyes  
With a glaze  
I can't escape

Underground  
Where reason sound  
100 miles  
No noise complaints

When Jesus comes we'll all  
Hold hands  
And stare the sun right in the... face

There's no light  
In my cave  
My holy cave

And I'll find a hideaway  
In a shadow that I make  
And I'd like to fade away  
In a cave that keeps me safe

I won't stay  
I will go  
I won't stay  
I will go

I'll be right  
I'll be there  
I'll be there  
Yeah I'll be right

My holy cave
