Holy Cave

Violent Soho

I remember times All those nights When we drove so far away Take me there Fearless air We can find a hideaway And I'll be free Unwind the sheets Let the breeze trickle like lead There's a place I like to hide Anywhere, yeah I don't... mind There's no light In my cave My holy cave All of these lights Hurt my eyes With a glaze I can't escape Underground Where reason sound 100 miles No noise complaints When Jesus comes we'll all Hold hands And stare the sun right in the... face There's no light In my cave My holy cave And I'll find a hideaway In a shadow that I make And I'd like to fade away In a cave that keeps me safe I won't stay I will go I won't stay I will go I'll be right I'll be there I'll be there Yeah I'll be right My holy cave
