

OK Cathedral

Violent Soho

Tell everyone
Tell everyone
You'd like to tell
That I'm not going to make it here

Waiting and waiting
For God
To carry me to shore
No I'm not going to take it here

And I said to my mother
Going to change you
Going to save you
But I'll be here anyway

Everyone knows
It's just like that
The Government knows
It's just like that

The writing is written on your back
I'll take an island in your eyes
Watch the sun get high
And pretend until it's all gone

I don't ever want to go
This Cathedral is my home

Wake up inside
Wake up inside
What you don't know
Cos' we're not going to make it here

For years
We've been acting so cold
Useless chat and ice
No we're not going to take it here

And I said to my mother
Going to change you
Going to save you
But I'll be here

Everyone knows
It's just like that
The Government knows
It's just like that

The writing is written on our back
I'll take an island in your eyes
Watch the sun get high
And pretend until it's all gone

I don't ever want to go
This Cathedral is my home
