

Killjoy  
You're like a rhinestone pickup line  
My drunk guitar's more fun than you'll ever be  
Dear God  
You're a monologue repeater  
A computer is a better friend than I'll ever be (than I'll ever be)

I ditched you Saturday night  
Cause I want you to know  
Take a photograph  
It's going to last longer  
I feel so temporary  
Like some viceroy and so maybe

Yeah  
King or the viceroys  
Yeah  
King or the viceroys  
King or the viceroys

Oh God  
Give it up the charisma  
This cold call waving is a sign of a weaker disease

I ditched you Saturday night  
Cause I want you to know  
Take a photograph, it's going to last longer  
I feel so temporary  
Like some viceroy and so maybe

Yeah  
King or the viceroys  
Yeah  
King or the viceroys

Why want it  
Why need it  
Why guess it  
Can't help me  
God help me  
God help me  
I am my own and so are you  
King or the viceroys  
King or the viceroys  
King or the yeah  
King or the viceroys  
King or the  
King or the shit
