

## Burn the Sun

Virgin Steele

Burning like a thousand suns  
Light years flash before my eyes  
My hands on the trigger of a smoking gun  
Shatterer of worlds I have become!  
We'll burn the sun tonight  
Light up the skies and watch the flames  
We'll burn the sun tonight  
Light up the skies and watch the flames  
No more days no more nights,  
Cause we'll burn the sun  
Devastation is calling me  
Dare forces conspire against thee  
Who will sit on the vacant throne  
To govern a kingdom of burning bones
