[Music and lyrics: De Feis]

Animal, grace in form and power Dignity, a conscious thought The judgement hour

To live in honor Quoting freedom's name A noble stance Bearing a proudful mane Noble savage!

Hope is born, a changeling dawn Bringing strange power Transform, change form Blend mind and matter

A voice of reason crying in the dark A raging fire from a spark Breathe through me

[Chorus:]
I'm a savage, I'm a king
I fought deceivers
I conquered evil

Animal, grace in form and power Dignity, a conscious thought The judgement hour

A voice of reason crying in the dark A divine vision from the heart Breathe through me

[Chorus]

Innocent eyes, shine down on me
Don't, don't, don't blind your eyes to me
I'm here with you
Always, again today
Can you feel me?
I'm with you
Never, never surrender
Oh, the power, the glory is yours
My kingdom, on high, again
Can you see?
I'm with you now...
