Noble Savage

Virgin Steele

[Music and lyrics: De Feis] Animal, grace in form and power Dignity, a conscious thought The judgement hour To live in honor Quoting freedom's name A noble stance Bearing a proudful mane Noble savage! Hope is born, a changeling dawn Bringing strange power Transform, change form Blend mind and matter A voice of reason crying in the dark A raging fire from a spark Breathe through me [Chorus:] I'm a savage, I'm a king I fought deceivers I conquered evil Animal, grace in form and power Dignity, a conscious thought The judgement hour A voice of reason crying in the dark A divine vision from the heart Breathe through me [Chorus] Innocent eyes, shine down on me Don't, don't, don't blind your eyes to me I'm here with you Always, again today Can you feel me? I'm with you Never, never surrender Oh, the power, the glory is yours My kingdom, on high, again Can you see? I'm with you now...
