Lonely Cowboy

Virginia Coalition

I dug my grave but there were blanks in the gun Sitting beside you I swore you were the only one Goodbye friends true love and happy endings It's all the same

Forgive me I must have just been lonely baby
Forgive me I must have just thought I was in love
Forgive me but don't ask me why
My fingers crossed until I die

And the light shining in your eyes It changed me for good And that's a while darling That's what I call you...
That's what I call you when I dream

Forgive me I must have just been lonely baby
Forgive me I must have just thought I was in love
Forgive me but don't ask me why
My fingers crossed until I die

No obstacles between my heart and my words My lips the great liaison to my soul You make me feel like a lonely cowboy Alone on the range late at night You make me feel just like a lonely cowboy

But it's alright
It's a soul ride
It's a soul ride
So it's all right
