

# Blow the Fuse

Viron

No healthy man is able to drink every day  
My friends always tekk me I've chosen a dangerous way

Gallons of wine and the night will be mine  
The spirit of vodka is taking my mind  
Blowing the fuse I'm right on my way down  
Puking the hell out the towel is thrown

Oooooohohohoho For sure, my head will explode  
Nooooohohohoho I can't leave this sad one way road  
Oooooooooooooo The abyss just one step away  
Nooooooooooooo Dark spirits are covering me

Beware of the devil his demons they sneak in my mind  
The ground of each bottle the goal of the satan behind

Over and over he's taking control  
And soon my thoughtlessness for sure takes its toll  
Faster and faster I'm on my way down  
Prisoned in (this) hell abandoned and gone

Oooooohohohoho For sure, my head will explode  
Nooooohohohoho I can't leave this sad one way road

Guitar!

Oooooohohohoho For sure, my head will explode  
Nooooohohohoho I can't leave this sad one way road  
Oooooooooooooo The abyss just one step away  
Nooooooooooooo Dark spirits are covering me
