

# Born Out of Light

Viron

Born out of light, caught in space and time, that's

mankind's way

Omniscient our mind, gods new name is science, we will

obey

Opinion ain't long since our own, great thinker's times

are lost and gone

We kneel down at science throne, without any doubt we

chatter their law

Living our lives, like zombies so blind, when will we

see

Our survival fight, imagined in mind, just take your fee

The bird that we hold in our hands, is worth as two

birds in the bush

Amassing paper, get more and more, for we don't know

what we're living for

Topsy-turvy is the world, the things don't seem to be

alright

Reflecting mirrors dancing in our minds

Topsy-turvy here we go to a land that's not yet known

When blood is gone anoki's born

Matter is mind, just look behind, so many signs

See through your life, for sure you will find your

paradise

It's just a move of your thoughts, peace of mind is the

reward

For you will climb your self-made throne, and without

any doubt you'll make your own law

Topsy-turvy is the world, the things don't seem to be

alright

Reflecting mirrors dancing in our minds

Topsy-turvy here we go to a land that's not yet known

When blood is gone anoki's born

When dusk come over me and there's nothing I can see

Say my prayers for the night, cold mist swallows the

last light

What will be there in the end, if the tower we had

planned

Crashes and no one sees the truth, now there's nothing

left to lose  
Nothing left to lose
