

For Her Majesty

Viron

Abandon all hope for today
Now sunlight has vanished complete
Not one of the stars light my way
In quest for the princess I'm seeking for her

In unholy union they stand
The snake plays its game for own winning
The princess so bling in her love couldn't see
The man by her side, the devil has been

For her majesty
I ride like the wind
Like the wind

Forced by his true loyalty
The warlord still searches the maid
A long time ago he'd foreseen
The intruder carries out his evil plan

For her majesty
I ride like the wind
Like the wind

Forced by his true loyalty
The warlord still searches the maid
A long time ago he'd foreseen
The intruder carries out his evil plan

The fate of the whole kingdom lies
In darkness that covers the land
The only way just to survive
Is to cross the personified devil's plan

For her majesty
I ride like the wind
Like the wind

For her majesty
I ride like the wind
Like the wind
