

Liberator

Viron

Still they are fighting the servants of evil
And bring people freedom - bomb attack!
And if someone asks for the reason
Make him believe it's a liberation act

Turning their hearts stone cold
In wars for black gold

Lies and deception in every paper
Brainwashing the minds of the average man
Vendors of doom are the makers
Feed their machines with black gold if they can

Turning their hearts stone cold
In wars for black gold

See the heroic raiders - blood on their hands, still liberators
Cruelly playing their game, truth and lies ate the same

Which force advocates them to raid other nations?
They say that they kill in the name of the lord
And in their final desperation
Will they be afraid of an atomic war?

Turning their hearts stone cold
In wars for black gold

See the heroic raiders - blood on their hands, still liberators
Cruelly playing their game, truth and lies ate the same

Warfare is everywhere - the war for black gold!
Our children are dying there - the war for black gold!
