

## Crucified

## Virtuosity

Another night in this cathedral of vision where sounds echo from  
walls from the centuries back to  
our times  
What was the reason why I can't hear it anymore?

Your highness give me a shelter  
Can you see that I am falling down  
Majesty, majesty...  
Why did you forsake me?  
Majesty, majesty...  
Can you see?

You don't know me and I don't know you  
You don't know me and I don't know you  
I've seen the darkness, I've faced the evil in many forms from  
bitter to sweet

Can't you see it feels like I'm crucified  
Can't you see it feels like I'm crucified

My eyes feel so sore, I can't stand it anymore  
Write in the candlelight divine tensions of sounds  
Forever is so long and time is waste  
To be or not to be, can't stand it anymore

Your highness give me a shelter  
Can you see that I am falling down  
Majesty, majesty...  
Why did you forsake me?  
Majesty, majesty...  
Can you see?

You don't know me and I don't know you  
You don't know me and I don't know you  
I've seen the darkness, I've faced the evil in many forms from  
bitter to sweet

Can't you see it feels like I'm crucified  
Crucified
