

No Destination

Virtuosity

I walk alone to a new direction like once before
I don't believe in love can't find the way to believe anymore
Only wasted emotions and wasted dreams
Don't turn away, don't leave me here
Give me the sign to believe

Like stranger, stranger, I have no destination
Hey angel, angel, I have no destination

It's like heaven and hell, like a sentenced without a cause
Like a drifter in the dark, I've felt it before

Like a stranger in the night looking for signs
Searching for a way to believe

Another night with broken strings, with the broken sound, waste
d time
I feel the rain in my face, broken soul like once before, can't
find my way to believe anymore

It's like heaven and hell, like a sentenced without a cause
Like being crucified in the name of love, I've seen it all before

Like stranger, stranger, I have no destination
Hey angel, angel, I have no destination
Like stranger, stranger, I have no destination
Hey angel, angel, where have you gone
