

## Winter Nights

Virtuocity

I searched through the snow  
I found a heart covered with ice  
I wish I could fly when I walk in starlight  
What I felt I soon realized, I wish could fly

Winter nights froze my heart  
Winter nights alone in the dark  
Winter night's tears in moonlight  
Winter nights froze my heart

I searched through the snow, I wish I could fly  
What I felt I soon realized when I walk in starlight  
I wish I could fly

Winter nights keep freezing my heart  
Year after year, day after v-day
