

# I'm Still Searching

Visage

Where do we go?  
Not sure if I know  
But still in my mind  
I'm still searching

Drive through the city  
The light guides my way  
It leads me to  
Another avenue

Through the empty streets  
As the night meets the day  
But still in my mind  
I look but don't find  
I'm still searching

Still searching for something  
I won't give in  
Still trying to find  
And still in my mind  
I'm still searching

I'm still searching...
