

Lost in Static

Visage

I'm looking in the mirror, is this really me?
Do you see a stranger? tell me what you see
Hold my hand, understand
Time away from here, coming to an end

And if you ask me how did I get here (did I get here)
I couldn't tell you, I just disappeared (and re-appeared)
I've been lost in static for so long (it's hard to know)
What is the difference (give up dreaming) is this a memory?

Been far away from heartbreak, was this really free?
Do you dream in whispers? Tell me where to be
Soul in hand, painless man
Hope you get to know someone on the end

And if you ask me how did I get here (did I get here)
I couldn't tell you, I just disappeared (and re-appeared)
I've been lost in static for so long (it's hard to know)
What is the difference (give up dreaming) is this a memory?

And if you ask me how did I get here (did I get here)
