

On We Go

Visage

And on we go
Chasing all the way but we're not lost
And on we go
Chasing all the way but we're not lost
And we ain't got time for us

Analyzed and sanitized, alone here I search for rescue
Paralyzed, anesthetized, wake up, face it, break it, rush from
solitude

And on we go
Slipped away with swords and lost our name
And on we go
Slipped away with swords and lost our name
And we fell apart with games
