

## She's Electric (Coming Around)

Visage

I see something on the horizon  
Can it be she's electric?  
Find it hard to believe she's coming  
Do what it takes to protect her

One, feeling it coming  
Two, she's coming around  
One, feeling it coming  
Two, she's coming around

I hear something under the night-time  
Can it be she's electric?  
Find it hard to believe it's over  
Do what it takes to detect her

One, feeling it coming  
Two, she's coming around  
One, feeling it coming  
Two, she's coming around

One, feeling it coming  
Two, she's coming around  
One, feeling it coming  
Two, she's coming around
