

The Promise

Visage

Promises it's your life
Promises it's your life

The promise:
You said it would come true
The proof:
The making up to you
Pride:
Hold your head up high
You've got them on your side
Please don't run please don't hide

Promises it's your life

The jury:
Decided it for you
Decisions:
Maybe they're untrue
Sometimes:
You've got to give and take
Hurry-up:
It's make or break
It's time:
Time to live live your life

Promises, promises
They sound good to me
Make your wish
And count to three

Promises it's your life
Promises it's your life
Promise me, I'll promise you
??????
And count to two

Lately:
Are you takin' wrong advice
Suggestions:
Maybe wrong maybe right
Remember:
You're takin' nothing for granted
Your past your present life maybe tainted
But remember it's your life

Promises it's your life
Promises it's your life...
