Time To Retaliate

Visceral Bleeding

This fucking bastard is getting on my nerves Always mouthing off, reek of foul odour Grotesque appearance, ugly as shit Just one look at him makes me wanna vomit

This fucking bastard is getting on my nerves
Always mouthing off, reek of foul odour
The sound of his voice sends shivers down my spine
I can't take it any more now his ass is mine

Time to retaliate Slash the cock off ram it down his throat Hit him kick him, no mercy will be shown He will suffer for his ignorance

Suffer severely for my sweet revenge Breaking his arms with a violent snap Put his legs up stomping his kneecaps He screams out in pain, bleeding, begs for life

He will feel pain unknown this worthless piece of shit Time to burn him, work him over with a blowtorch Skin is melting skin is melting Sour smell, makes me vomit Makes me hate him even more

Hacking with my knife I will go berserk Slashing up his stomach, ripping up his throat Stabbing his face, peeling out his eyes Drenching myself in blood

Carve out his heart, squash it with my foot
And every other organ waiting in his gut
When i'm through with him, there won't be anything left
Total dismemberment, is all that's in my head

This sorry motherfucker should've left my world alone Minded his own business, not interfered with mine Start to pour out gasoline all over the remains Burning bright he'll soon be gone, no one will ever know

It's time for retaliation Suffer my violent retort Vengeance is mine Time to retaliate
