## **The Streets Of Laudomia**

**Vision Divine** 

For you I'll cross the seven seas Till the gates of Laudomia The walk is long but I've no fear And I will step in through the door: The 3 cities of Laudomia... Smelling flavors never known

And in the living town I'll cross the silent roads Under a leaden sky I'll come to stop my rove

And there I will stop by The many crossroads crossing I'll stand by Unraveled streets of mine When shadows will cover The 3 shapes of Laudomia The moonlight Will tell me where to find your home

I'll see the light oh, Laudomia!

And when the Oceans will be dry Still we'll be here in Laudomia The city of a thousand cries to the horizon we will fade In the legend of Laudomia Forever bound to eternity

And in the viewless town we'll cross the silent roads Under a leaden sky we'll come to stop our rove

And there I will stop by The many crossroads crossing I'll stand by unraveled streets of mine When shadows will cover The 3 shapes of Laudomia The moonlight Will tell me where to find your home

I'll see the light oh, Laudomia
