

Winternight

Visions of Atlantis

Winternight
Mournfull cries are in my mind
In this stormy winternight
Paint a shadow on my heart
A black cloud rains over me
See, this is me, no pleasure to see
Still the dark cloud is surrounding me
Scared, to be a different kind of my own
And the storm is raging on and on
Cold winternight - no way out of the dark
No one's leading me back
To the place where I belong
Tried to breathe in rays of light
I can't be without my winternight
See, this is me, no pleasure to see
Still the dark cloud is surrounding me
Scared, to be a different kind of my own
And the storm is raging on and on
Cold winternight - no way out of the dark
No one's leading me back
To the place where I belong
Uncovered secrets will never be found
No rebirth, no regrets never be the one to hold
Cold winternight - no way out of the dark
No one's leading me back
To the place where I belong
Uncovered secrets will never be found
No rebirth, no regrets
Never be the one to hold.
