

## In Infamy

## Vital Remains

Hail to the fallen ones  
Praise our fallen ones  
They walked with the darkness  
They lived through pain and suffering

No regrets  
Streamroll right through the heard  
Never looking back through their veins  
Flows the blackest of blood  
Heathens arise  
Sweep forth the sickle of abomination  
Continue their murderous fury  
Ripped from our hands  
Hear the cries of those left behind

Full force  
Through the storm of retribution  
Though life was cut short  
Your memory will carry on  
Remember the fallen  
Through celebration of the human kings  
Look toward the sky  
That is where I'll never be  
Walking the path of the wicked  
Their deeds shall live in infamy
