

Fade Away

Vitalic

When you're all over me, I drown
I had over beating,
Blue, but your shine it seems the sound
That's the sound that I once knew

In your ocean of deep blue
Mirrored skies that knew,
When the sun had gone
As we find our clothes and the night is over

You fade away, you fade away, you fade away
You fade away, you fade away, you fade away
The passing night, before the morning
My broken heart can't mend

You fade away, you fade away, you fade away
You fade away, you fade away, you fade away
The passing night, before the morning
My broken heart can't mend

When you're all over me, I drown
I had over beating,
Blue, but your shine it seems the sound
That's the sound that I once knew

You fade away, you fade away, you fade away
You fade away, you fade away, you fade away
The passing night, before the morning
My broken heart can't mend.
