

# Busted

Vitamin C

Some things you feel  
Before something's revealed  
Sometimes you know  
Before sometimes it shows  
You were with her said  
You weren't and  
You're not not not  
Gonna lie about the  
Feelings that you  
Got got got

You can tell me that  
You love me but  
You're not not not  
Gonna get away  
With lying 'cause  
You're hot hot hot  
I believed you when  
You talked  
About love love love  
That I'm the only one  
That you were thinking of

But I'm really not the  
Type to rise above  
A little indiscretion  
With a scrub  
Busted, its you I trusted

I guess I must have  
Been a fool  
Some things you feel  
Before something's revealed  
Sometimes you know  
Before sometimes it shows  
It's not gonna happen  
You can try try try  
I'll never take you back  
I'd rather die die die  
I know you really did it  
'Cause you lie lie lie

And now we're not \*NSYNC  
So its bye bye bye  
So you tell me that  
You want me and I'm hot  
That I'm the only  
Good thing that you got  
Too bad you were  
Cheating and got caught  
You really don't  
Deserve another shot

Busted, it's you I trusted  
I guess I must have  
Been a fool  
You were with her

Said you weren't  
Had your fun fun fun  
Now I guess you're  
Gonna pay for all the  
Things you've done  
Don't even try to tell me  
She's the only one  
If you see me coming  
Near you better run run run  
So now I know the truth  
I wonder why why why

But I'm not the type to  
Sit around and cry cry cry  
Now you turned your back  
On the one you trusted  
Too bad baby 'cause  
You're busted
