

Forever

Vivian Green

Laying here, thinking bout us baby
How we did it, it's amazing
We've come so far
We're nothing, back to how we started

You just hit me like a hurricane
I'll never be the same
I'm still floating now
My feet, they barely touch the ground

And I guess I do owe you for that
So all my life I'm gonna pay you back
Wanna say thank you baby, thank you
I will leave you never, you got me forever

(You are my life)
There's no life without you
(You blow my mind)
Every single time
(And if the sun refuse to shine)
You know you could light the whole world
Forever I'ma be your girl
Forever I'ma be your girl

Laying here, thinking bout us baby
Things are just as they should be
Nothing I could do
Cause every road would lead to you oh
Was out here looking for the wrong thing
Never is the word you think
It's a bigger plan
And you have helped me understand it

And I guess I do owe you for that
So all my life I'm gonna pay you back
Wanna say thank you baby, thank you
I will leave you never, you got me forever

(You are my life)
There's no life without you
(You blow my mind)
Every single time
(And if the sun refuse to shine)
You know you could light the whole world
Forever I'ma be your girl
Forever I'ma be your girl

Forever forever

(You are my life)
And there's no life without you
(You blow my mind)
Every single time baby
(And if the sun refuse to shine)
Baby you could light the whole world
Forever I'ma be your girl
Forever I'ma be your girl

Forever forever forever
Forever forever forever
Forever forever forever
Forever forever forever

Forever forever forever
Forever forever forever
Forever forever forever
Forever forever forever
