

Hey, smile Im on my way  
you'll always be the same  
you can't be alone  
each day, waiting at your gate  
you know it's not too late  
you wont be alone  
well, easy hurt yourself  
be easy on yourself  
follow me , follow me  
Im easy with the world  
play, you never thought you'd win  
the brightest lights will dim  
then you wont be alone  
get out on your way  
a world where you belong  
where you will sing this song  
cause you wont be alone  
well, easy hurt yourself  
be easy on yourself  
follow me, follow me  
Im easy with the world  
on and on and on  
there will be heartaches of young ones  
on and on and on  
oh, I admit it's much more fun  
and on and on and on you'll hear the laughter and feel  
the sun  
on and on and on and on and on and on...  
well, easy hurt herself  
be easy on yourself  
follow me, follow me  
Im easy with the world
