

## Still

Vivid

What's up brother  
Don't you hear the churches fall  
Won't you run and watch it all  
Hear the others  
Hear the bells so blue their sound  
And if you're fast you'll be around  
It won't be the same again  
Feel the open wind my friend  
Don't you know this is the end of this game

"Means nothing to me"  
And still they want to know  
And still they are searching for the light  
And still they want to grow in you  
Watch the rivers  
See the darkest stream and drown  
See how fast it's running down  
I won't feel the same again  
Touch the coldest cross my friend  
Don't you know this is the end of this game  
And still they want to know  
And still they are searching for the light  
And still they want to grow in you  
Still they want to grow  
And still they are searching for the light  
And still they want to know

To be alone  
To be alone  
To be alone

I won't be the same again  
Feed the open mind my friend  
Don't you know this is the end of this game  
And still they want to know  
And still they are searching for the light  
And still they want to grow in you  
Still they want to know  
And still they are searching for the light  
And still they want to grow in you

To be alone  
To be alone  
To be alone
