

# Bleed

Vixen

Why must I be like someone else?  
Why can't I just be myself?  
If I should change who would it please?  
Tell me the truth is this all there is  
When I die will anybody care?

Well, don't tell me how to feel  
Don't tell me what's not real  
'Cause I am just me  
And I'm gonna let myself bleed  
So, get out of my way  
I'm gonna let myself fear  
Let it live, 'cause this is my pain  
This is my pain

You tell me that I should believe  
These things just take some time  
Well, I believe that you should leave  
You just don't understand  
Well, it sucks to me  
I don't need your condescending sympathy

Well, don't tell me how to feel  
Don't tell me what's not real  
'Cause I am just me  
And I'm gonna let myself bleed  
So, get out of my way  
I'm gonna let myself fear  
Let it live, 'cause this is my pain  
This is my pain

You're never gonna get inside of my head  
I never really cared about the things that you said  
You're never gonna have a place in my world  
'Cause you don't get it  
You just don't get it, oh no.

Well, don't tell me how to feel  
Don't tell me what's not real  
'Cause I am just me  
And I'm gonna let myself bleed  
So, get out of my way  
I'm gonna let myself fear  
Let it live, 'cause this is my pain  
This is my pain
