

# Hell Raisers

Vixen

Watch out!

Have you heard the news on the street today  
We're packing up and heading your way, your way  
Roll out the carpet and nail it to the ground  
Statr up the party 'cos we're coming 'round

Step into the fire  
We're headed straight for you  
We're taking you higher  
That's what we're paid to do

Hell raisers, from town to town  
Hell raisers, never let you down  
Hell raisers, steppin' out  
Hell raisers, let there be no doubt

New York to London, Paris to LA  
Rollin' thunder  
The storm is on the way, get ready  
Pressure risin' as the lights go down  
Grab your seats, we've come to rock this town

Step into the fire  
We're headed straight for you  
We're taking you higher  
That's what we're paid to do

Hell raisers, from town to town  
Hell raisers, never let you down  
Hell raisers, steppin' out  
Hell raisers, let there be no doubt

Have you heard the word on the street today  
We're packing up and heading your way, your way....
