

## How Much Love

Vixen

You're in the corner turning your back  
You're running away again  
The more I give you  
The less that you take  
Tell me where is it gonna end?  
I can see you've felt some pain  
I know you've been hurt before  
But I swear you won't get hurt nomore

Tell me how much love is it gonna take  
To prove I'm not another heartache  
Till you begin to let your heart give in  
How much love is it gonna take

I'm reaching for you, getting so close  
But you're always a step away  
I wanna touch you'n give you my love  
Tell me what it's gonna take?  
I can see it in your eyes  
That you wanna let me in  
But you're scared that you'll get hurt again

Tell me how much love is it gonna take  
To prove I'm not another heartache  
Till you begin to let your heart give in  
How much love is it gonna take

I've been searching for an answer  
Tell me what it's gonna be?

Tell me how much love is it gonna take  
To prove I'm not another heartache  
Till you begin to let your heart give in  
How much love is it gonna take
