## **Love Made Me**

Our conversation ends too soon, you grab your coat and leave th e room My heart dissolves onto the floor, our world divides, we don't talk anymore

And I still remember when we first met, it was on a night like this The moon was shining for you and me When I stood alone, I'd be betrayed by your kiss

Love made me blind to the truth Love made me crawl, I should've stood up to you Love made me cry out your name So what's so good about love when it hurts you this way

Cold lurking nights, in the days there were tears They held us captive, and chained to our fears Is this the dream you've been searching for Is this the love that I don't want anymore

Love made me blind to the truth Love made me crawl, I should've stood up to you Love made me cry out your name So what's so good about love when it hurts you this way

Somewhere in a scene you were holding me, we both never fade But the hope it sounds on the battleground, nothing's gonna cha nge

Love made me blind to the truth Love made me crawl, I should've stood up to you Love made me cry out your name So what's so good about love when it hurts you this way
