

You are so dangerous with every move you tease me.
You have the whole wide world lining up at your door.
With every step you take my heart becomes uneasy.

If I tell you, if I tell you would you laugh at me?
You are heavenly when you're next to me.
Let me touch your soul with my body.
You will have me at your knees.
You are heavenly when you're next to me.
Let me touch your soul with my body.
You will have me at your knees.

You left me ridiculed with all your precious feelings.
I no longer can ignore the way you strap your heart.
You have no idea how difficult it kills me.

If I tell you, if I tell you would you laugh at me?
You are heavenly when you're next to me.
Let me touch your soul with my body.
You will have me at your knees.
You are heavenly when you're next to me.
Let me touch your soul with my body.
You will have me at your knees.

You are Heavenly.

With my body.
You will have me at your knees.
You are heavenly when you're next to me.
Let me touch your soul with my body.
You will have me at your knees.
You will have me at your knees.

You are Heavenly.
