

Just For You

Viza

Just for you.
I will cry myself a little more.
Just for you.
I will lie awake a little more.
Just for you.
I will starve myself a little more.
Just for you.
I will lose myself a little more.

Let her go.
If there is nothing much left to say.
Let her go.
If there is a will there's definitely a way.
Let her go and i try and i try and i try to let her go.

Just for you.
I will hide myself a little more.
Just for you.
I will sigh myself a little more.
Just for you.
I will shame myself a little more.
Just for you.
I will blame myself a little more.

Let her go.
I suppose I'm left only to pray.
Let her go.
Her voice calls me everyday.
Let her go and i wake up calling to you.
Let her go. Let you go. Let us go.

I swear to my life for you.
I am forever in night to you.
I am unholy, unworthy, a violent mess deserving the suffering that bleeds into the fire & you leave me to die...just for you.

I will face myself a little more.
Just for you.
i will age and rest a little more.
Just for you.
I will love no less a little more.
Just for you.
I will wait till death.
