

Moon Of Dust

Voice Of The Beehive

Finding out the truth about you
Was finding the moon is made of dust
Oh no, I have seen this mood before
Tension, flying all around the room
I have had my share of more, forgive and forget
Like before
No love's lost

Finding out the truth about you was
Finding the moon is made of dust
Stars are just confetti and heroes always fall
From the bedroom walls and
The moon is made of dust
I believe that love prevailed
I tried and I have failed
So sing to me a lullaby and disappear into the night
Love's gone home

Goodbye to all my heroes, hello to all the friends
I've disregarded all though the years
Goodbye to all my favourite songs
I wish that love and fear did not prove
You're a million miles from here
I'm tried, tired of this stupid heart
Ragged, aged and torn apart
We'd walk all around this crazy world
You were glue to a broken down and fed up,
Never gonna get out baby
