

# Deathproof

Voivod

We got to leave now, we got to load now, we got to love  
now

All aboard now, time to roll on  
1-2-3-4 Shut the damn door  
All drunk on fun, band on the run  
Turn off the lights, live this life twice

So now how does it feel?  
So now does it feel real?

Crack the windows, there is freedom in every breath you  
take

As the wind flows, a rain song is getting to my brain  
Miles after miles, songs after songs  
Drive through daylights right to the sun  
You by my side where you belong  
Turn off the lights, live this life twice

So now how does it feel?  
So now does it feel real?
