

## Inner Combustion

Voivod

Crucible heats up  
Arsenic, mercury  
And acid concoct  
Hermetic theory  
Hydrogen vapours  
Exclusion principle  
It's never over  
For ever practical

And I try  
Throughout time  
Any rite  
For the sign

Light rebounds  
Pure neon  
I surround  
All am I, I am all  
Fluorescent light  
Pellucid mineral  
Essential dogma  
Excludes the logical  
Immobile centre  
One, two, three for nothing  
Projection ponder  
Under a raven's wing  
Catalyst fusion  
Inner combustion  
A transmutation  
For I am all
