

My lands are infectious
Your sun begin to gloom
You see my harful country
And my sky is black today
Pay the price for your life
your ticket to open gate to die
Voivod! the wine of blood

Voivod! I'm a paranoid
Voivod! The ferocious dog
Voivod! I'm a crazy God
My eyes fix your soul
When I relish, I'm a beast

I like it coz it's too late to go
When I torture, you freeze
I'm a nuclear creature
And if you see your angel
Contaminate him with cancer

In the black hole of the night
For atomic fight
Come with me in my spider line
Don't worry in the terror you stay
Your visit is short today
I'll chop your body to eat And if you don't trust me
