

## Another Day, Another Way

Volbeat

Jumping on the next train  
And for a moment  
I just don't know where I am  
Sick and tired of seeing good people  
Bending over for the system that I hate

Never meant to break your heart  
But for a moment I just know I have  
Give me time to cope my mind  
And finding faults for the reason  
To why I leave

Must leave when I'm going strong

Lead me away and I shall call love on you  
Leave me the way that I still burn over you  
I've been aware

Sitting here in county hail  
I should have been with you  
But that's just how I am  
Ain't no one to go my bail  
But at least I know just when  
And how I leave

Must leave when I'm going strong

Lead me away and I shall call love on you  
Leave me the way that I still burn over you  
Well i've been waiting for years  
And I still call love on you  
Leave me the way that I still burn over you

Well I've been aware
