

# Last Day Under the Sun

Volbeat

I'm in the lion's cave  
I've done it all before  
I feel alive again  
But maybe not for long  
Another day will come  
Full of light and desire

Is your life okay?  
Is it who you are?  
Are you right on track?  
Or has it gone too far?  
Well, only you will know  
Don't let the blues get you down

I'll be alone in the end  
I'll be alone and blue, oh

Well, it's the last day under  
Last day under the  
Last day under  
Last day under the  
Last day under, under the sun  
Yeah it's the last day under, under the sun

Nobody really knows  
How many years went by  
The lion left it's home, and now he's good and fine  
Another day will come, full of light and desire

I'll be alone in the end  
I'll be alone and blue, oh

Well, it's the last day under  
Last day under the  
Last day under  
Last day under the  
Last day under, under the sun  
Yeah it's the last day under, under the sun

The memories are all we have  
So keep them safe and sound  
Nothing matters but what we learned  
Get your feet back on the ground

Well it's the last day under  
Last day under the  
Last day under  
Last day under the  
Last day under, under the sun

It's the last day under  
Last day under the  
Last day under  
Last day under the  
Last day under, under the sun

Well it's the last day under

Last day under the  
Last day under  
Last day under the  
Last day under, under the sun

Yeah, it's the last day under, under the sun, oh  
Yeah, it's the last day under, under the sun  
(Under the sun)
