

Let It Burn

Volbeat

Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn

The fire may not open,
but the Devil will return
Insanity or glory,
in a mind that never learns
A moment of something
where the dark can reverse

Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn

The empty eyes are falling down
the path of no return
In blindness he wanders,
if his mind will ever learn
A moment of something
where the dark can reverse

Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn

Tell the lonely where to go
Kill the inside and let it burn
He's not the only without hope
Kill the inside and let it burn
