

Seal the Deal

Volbeat

Sold my soul and singed my name in blood
Stole it back now praying in the dark
Fooled the devil
Begging for a fight
Count the dollars make your bet tonight

Feel strong like an oiled machine
All the anger boils within
Move it
Give it
The high rollers are in

I get groovy
now turn it on and fight
Seal the deal and let's boogie for a while
Let's get groovy
Burning out with rage
Seal the deal and let's do it all again

Knuckles crushed
My eyes no longer see
I paid the price and fed the family

Feel strong like an oiled machine
All the anger boils within
Move it
Give it
The high rollers are in

I get groovy
now turn it on and fight
Seal the deal and let's boogie for a while
Let's get groovy
Burning out with rage
Seal the deal and let's do it all again

Sing hallelujah
The devil in disguise
There'll be no more pearly gates
So stand up for yourself this time
Fight for honor let no one drag you down no more
Be your own man with blood sweat tears you fall

I get groovy
now turn it on and fight
Seal the deal and let's boogie for a while
Let's get groovy
Burning out with rage
Seal the deal and let's do it all again

I get groovy
now turn it on and fight
Seal the deal and let's boogie for a while
Let's get groovy
Burning out with rage
Seal the deal and let's do it all again
