

## Pull The Plug

### Vomitary

Can you tell me what's goin' on why my legs are dead  
and my eyes are gone  
Can you tell me what the doc has meant when he said  
these things  
I don't understand  
Won't you tell me why I feel inside growing up the wish  
that I want to die

I can't fight anymore I have lost all my power  
I won't fight anymore nevermore  
Nevermore Won't fight again I won't fight again  
I have lost it all my friends  
I don't fight anymore nevermore

I hear mother crying beside my bed want to comfort her  
but my voice is dead  
When I want to stroke her hair there are no arms  
anywhere

Who has failded oh I feel so trapped parents can't you  
see that I wish for dead  
Father says : you must fight my son!  
But your son is dead and this livin' corpse just wants  
to die

And I have heard them whisper next door is there no way  
to let him die  
Can you tell me why they don't see that is anything I  
try  
Our state says there is no fuckin' way this machine is  
there to give him life please  
Pull the plug out of the wall this livin' corps just  
wants to die
