

Brother

Von Herten Brothers

Brother!

These shotguns are keeping me awake at night
- you know I'm praying then for you

Brother!

And everything they say is so black and white
- it is the way that they get you

You left me here, like a pearl inside its shell

Brother!

If anything, get me out of here

I am here for you

Like you want me to

We'll make everything good

Brother!

Tell me what it is that's going wrong with me
- I don't know right from wrong myself

I've got shotguns hanging in the air all around me

One is sticking right out of my

Mouth and it's letting no one close to me

I feel lonely, like a pearl inside its shell

Brother!

Help me out of here

Remember...

Birds and fishes around the pond we rested by

Words and wishes secrets that we shared that night

Trees and flowers faces in the pale moonlight

Streets and towers places where we went at night

Mikset sä oo tullu jo takaisin?
