

# Experience

Von Herten Brothers

Everybody here is trying to fix their holes  
And everybody's desperately trying to save their souls

And everybody's hunting someone down  
And everybody's getting spinned around

C'mon experience the  
Merry-go-around-around-around-around

So here I am in love with you  
And you're in love with her  
And she's in love with him  
And he's in love with another girl  
Who's about to fall for me so you would

You would like to join the show?  
No I think you should

Open your eyes and blow away your mind  
Experience the moment don't get left behind

Yeah I know that you can picture yourself  
In a hole, in a mirror, tell me what to see  
Tell me how it feels you know all the stories of  
Rainbows skyhigh  
All-around-moonlight everynight  
No, why?

Here you are in love with me  
And I'm in love with her  
And she's in love with him  
And he's in love with another girl  
Who's about to fall for you  
Who would like to set me free, set me free  
Endlessly be with me, be with me

Open your eyes and blow away your mind  
Experience the moment don't get left behind

This time you really know that you should  
If you could you would blow it away  
Go astray while we shake our sugar heads

And where am I going I don't want to know  
What lies ahead's got to stay unknown  
- it's far from over  
Where am I going I don't want to know  
What lies ahead's got to stay unknown...

Open your eyes and blow away your mind  
Experience the moment don't get left behind
