

# My Whole World

Vonda Shepard

My whole world is built on this  
To dream about your love  
And to live inside your kiss  
Well how can I manage to live like this?

Is my fate how finally turning  
My favourite kind of yearning  
Oh don't it always go to show

My whole world is built on this  
A philosophy of how to stay  
In a state of bliss  
How can I manage to live like this?

I was born in '63  
With a peace sign on my knee  
I said "Mama I was born to sing"  
And I rocked till the dawn  
With my baby clothes on  
I said "Mama tell me what to think"?

I love you in a different way  
Well you let me be myself  
And I love it that way  
Freedom freedom has a new meaning  
Hey hey hey

My whole world comes down to this  
To live in inspiration  
Without checking off a list  
Can anybody manage to live like this

Well music is my life  
And love it is my drive  
On my shoulders I don't feel no weight  
Now I'm dreaming again  
And exaggerating  
Can you save me long enough to behave?

I love you in a different way  
Well you let me myself  
And I love it this way  
Freedom freedom has a new meaning  
Hey hey hey

I love you in a different way  
Well you let me be myself  
And I love it this way  
Freedom freedom has a new meaning  
Hey hey hey
