```
Say the words
Say the words
Every light shines on you tonight
Making a fool out of me
Why won't this love leave me alone
All of the people in this smoky room
Crowded with faces I know
I feel them watching me watch you
Say the words
Say the words
Say the words
So I can leave, it's over
Your eyes are deeper, they are worthy of many words
None I can conjure up will do for you
But I shouldn't see you
'Cause I know my own motivation
It's taking too long for this love
To leave me alone
Say the words
Say the words
Say the words
So I can leave, it's over, it's over
Oh love, you worry me
When you say, you'll wait forever
'Cause I have another life
We just cannot be together, no no
Say the words
Say the words
Say the words
Say them for me
I need to hear you say, it's over, it's over
Say the words
Say the words
```

Say the words

So I can leave, it's over, it's over
